

Truman Medical Center Hospital Hill. Caring for all of Kansas City.

Truman Medical Center (TMC) Hospital Hill, Kansas City's only real downtown hospital, is strongly committed to meeting the healthcare needs of the underserved, while also offering a wide range of specialized medical services to all segments of the community. The hospital is part of Truman Medical Centers, a two-hospital, 600-bed, not-for-profit healthcare system, the largest and most comprehensive safety net healthcare provider in Jackson County and Kansas City, Mo. TMC serves as the primary teaching hospital for the University of Missouri-Kansas City Schools of Medicine, Nursing, Dentistry and Pharmacy.

Recognized as a critical area resource for advanced specialized healthcare, TMC is constantly working to deliver the best possible medical care for our patients. Quality, innovation, teamwork and attention to detail are at the heart of all we do. TMC's tagline is: "Better. For Everyone." It is a simple statement, but it has profound significance. It is what we stand for, it is the focus of our work, and it is our promise to our patients.

"It's hard to imagine Kansas City without Truman Medical Centers."

*Peggy Dunn, Chairman,
TMC Board of Directors*

We Are Here For You

Located in the heart of downtown Kansas City, TMC Hospital Hill is just steps away from Crown Center and the River Market area. With the burgeoning redevelopment of downtown — the Sprint Arena, the H & R Block Building, Power & Light District and the numerous new living spaces — TMC Hospital Hill is perfectly located to serve the healthcare needs of urban Kansas City.

It's All About Feeling Better

Recently recognized as one of the nation's top academic medical centers, TMC Hospital Hill:

- Serves more than 65,000 individual patients each year.
- Is noted for its expertise in chronic disease management and high-risk pregnancy.
- Provides a Level One Trauma Center (the highest designation), one of just a few in the metropolitan area. With 52 emergency beds, TMC Hospital Hill is one of the largest and busiest emergency departments for adults in Kansas City.
- Features the newly opened Bloch Cancer Center, dedicated to patient-centered oncology care in a soothing, art-filled environment including an on-site pharmacy, helpful Patient Navigators, wig and prostheses boutique, and clinical trials through TMC's membership in the Midwest Cancer Alliance.
- Includes a 19 bed birthing center and a Level III neonatal intensive care unit.
- Features an expanded Diabetes Center, with a patient resource center, a classroom and private consultation rooms.
- Is home to TMC's Center for the Healing Arts, an innovative arts and humanities program that uses the creative expression of arts and literature to encourage a broader understanding of people in health and illness.
- Provides the site of the Asthma Research Center in conjunction with the American Lung Association.
