

Truman Medical Center Health Sciences District *Kansas City's Essential Hospital*

Truman Medical Center (TMC) Health Sciences District, Kansas City's only real downtown hospital, is strongly committed to meeting the healthcare needs of the underserved, while also offering a wide range of specialized medical services to all segments of the community. The hospital is part of a two-hospital, 600-bed, not-for-profit healthcare system, the largest and most comprehensive safety-net healthcare provider in Jackson County and Kansas City, Missouri.

Our doctors train the doctors of tomorrow.

TMC is an academic medical center, serving as the primary teaching hospital for the University of Missouri-Kansas City Schools of Medicine, Nursing, Dentistry and Pharmacy. Recognized as a critical area resource for advanced specialized healthcare, TMC is constantly working to deliver the best possible medical care for our patients. Quality, innovation, teamwork and attention to detail are at the heart of all we do.

We can handle it.

TMC
TRUMAN MEDICAL CENTERS

We are here for you.

Located in the heart of downtown Kansas City, TMC Health Sciences District is just steps away from Crown Center and the River Market area. With the burgeoning redevelopment of downtown — the Sprint Arena, H & R Block Building, The Power & Light District and the numerous new living spaces — TMC is perfectly located to serve the healthcare needs of urban Kansas City.

It's all about feeling better

Recently recognized as one of the nation's top academic medical centers, TMC:

- Serves more than 65,000 individual patients each year.
- Is noted for its expertise in managing asthma, diabetes and other chronic diseases.
- Provides a Level One Trauma Center (the highest designation), one of just a few in the metropolitan area. With 52 emergency beds, TMC is one of the largest and busiest emergency departments for adults in Kansas City.
- Features the Bloch Cancer Center, dedicated to patient-centered oncology care in a soothing, art-filled environment, which offers patients an on-site pharmacy, helpful Patient Navigators, wig and prostheses boutique, and clinical trials through TMC's membership in the Midwest Cancer Alliance.
- Includes a 19 bed birthing center and a Level III NICU. Our staff provides care to mothers who deliver at Children's Mercy Hospital (CMH) for emergency and critical care maternal fetal medicine issues. A bridge connects the two facilities for easy access between the hospitals. CMH's Level IV NICU (the highest designation) is just across the bridge.
- Features an expanded Diabetes Center, with a patient resource center, a classroom and private consultation rooms.
- Is home to TMC's Center for the Healing Arts, an innovative arts and humanities program that uses the creative expression of arts and literature to encourage a broader understanding of people in health and illness.
- Provides the site of the Asthma Research Center in conjunction with the American Lung Association.

- Features the only treatment center in the region for adults with sickle cell disease.
- Is noted for its treatment of high-risk pregnancy and other women's health conditions.
- Has on-site language interpreters in Spanish, Somali and Arabic and provides translation services for approximately 150 languages through Cyracom.
- Helps educate more than 1,000 students each year by serving as the primary teaching hospital for the University of Missouri-Kansas City Schools of Medicine, Nursing, Dentistry and Pharmacy.
- Contains a state-of-the-art Cardiology Center, featuring a complete range of cardiac services for prevention, early diagnosis, interventional treatment and cardiac rehabilitation in a beautiful, patient-centered environment.
